## Cover Letter

Jeff Hayes  
Top Notch Home Inspection, LLC  
16415 Wayne Dr.  
OREGON CITY, OR 97045

Dear Jeff Hayes,

Enclosed please find Pixis Labs analytical report for samples received as order number 6080110 on 08/01/2016. Should you have any questions about this report or any other matter, please do not hesitate to contact us. We are here to help you.

Test results relate only to the parameters tested and to the samples as received by the laboratory. Test results meet all requirements of NELAP and the Pixis quality assurance plan unless otherwise noted. This report shall not be reproduced, except in full, without the written consent of this laboratory. Samples will be kept a maximum of 15 days from the report date unless prior arrangements have been made.

This report has been amended to include the 0.02 mg/L action level for lead.

Thank you for allowing Pixis to be of service to you, we appreciate your business.

Sincerely,

Signed  
Richard Reid  
Project Manager

Special Instructions: CMO13

**ARSENIC, NITRATE, AND COLIFORM BACTERIA INSTRUCTIONS**

1. Fill out the address and sample collection information at the top of the form and attach payment of \$90.00, for standard turn-around. Call our Customer Service Department for information and pricing on rush samples or sample pick-up.
2. The Coliform test sample must be collected in the sealed, sterile bottle. The sample must be collected from the source prior to any form of treatment, or after injection points where the treatment has been disabled or bypassed. Before collection, remove any strainers and wipe the faucet clean with an alcohol swab. Run the water for 5 minutes or until it reaches constant temperature before collecting the sample. Remove the sterile seal from the bottle and remove the cap. Do not rinse out the bottle. Take care to not touch the inside of the cap or bottle. Fill the bottle between the 100 ml and the fill line. Be sure to leave a 1-inch airspace. Do not overfill or overflow the bottle.
3. Fill both the Arsenic and Nitrate sample bottles.
4. Arsenic, Nitrate, and Total Coliform samples must be received by the laboratory within 24 hours of sample collection. Samples must be kept cool, between 36° and 43°F. Samples may be rejected if sampling instructions are not followed or if the microbiological sample has leaked, is not filled properly, and/or is over 30 hours old.

New accounts are accepted with full payment in advance by cash, check, Visa, or MasterCard. A credit line may be established with an approved credit application. All credit line accounts are payable within 30 days following the date of invoice and subject to legal interest on past due accounts. Accounts that are 60 days past due will automatically default into cash on delivery (COD). Reports will not be released unless payment on past and current invoices is received.
