School Goals

Our school strives to provide rigorous instruction through the use of WICOR (Writing to learn, Inquiry, Collaboration, Organization, and/or Reading to learn) in every lesson. WICOR provides a learning model that educators can use to guide students in comprehending concepts and articulating ideas at increasingly complex levels through student engagement.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2027. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

Our school strives to ensure all students and their parents / guardians feel safe and welcomed by having all visitors greeted as soon as they enter the school. Our staff makes sure they are out in the halls during passing time as well as active participants during extra curricular activities. Scio High School prides itself on having a friendly atmosphere with several outreach resources readily available. In an attempt to make all students feel safe SHS brings awareness about bullying by defining what bullying is and holding all students accountable when any bullying issue is brought forward.
