

Scio School District 95

Code: JFCEB
Adopted: 1/20/16
Revised/Readopted: 9/25/25

Personal Electronic Devices**

Student use of a personal electronic device is prohibited from the start of school hours until the end of regular instructional hours, except as provided below. Personal electronic devices can be used when students are not on school grounds and are not under the supervision of school personnel (other than a school bus driver)¹.

Except as otherwise provided in this policy, “personal electronic device” means any portable, electrically powered device that is capable of making and receiving calls and text messages and accessing the internet independently from the school’s network infrastructure.² This includes headphones and earbuds attached to personal electronic devices. This does not include a laptop computer or other device required to support academic activities.

Personal electronic devices may be used when use complies with the terms of:

1. The student’s medical provider’s order for the care and treatment of a medical condition;³
2. The student’s individualized education program, as defined in ORS 343.035 or an education plan developed for the student in accordance with section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794);⁴
3. A written exemption provided for the student based on a request received in JFCEB-AR. School administration will respond to such a request within ten school days.⁵

Personal electronic devices may be kept by students in lockers, backpacks, or may be stored on the student’s person, but may not be used during school hours. School handbooks will address storage locations at specific sites.

Students in violation of this policy will be subject to disciplinary action. Discipline for mere possession or use of a personal electronic device may not include loss of instructional time for the student (including suspension or expulsion), but could include detention, Saturday school, a change to storage requirements, etc.. However, if the actions taken by a student violate another conduct policy, the student may be subject to discipline up to and including expulsion.⁶

¹ If students are under the supervision of school personnel other than a school bus driver, the use of personal electronic devices is prohibited during regular instructional hours.

² JFCEB-AR must be submitted to the building administrator, along with a copy of the order.

³If use of the personal electronic device is included in the individualized education program or education plan, JFCEB-AR submission is not required.

⁴JFCEB-AR must be submitted to the building administrator.

Each site has a personal device procedure that outlines steps for noncompliance.

Necessary communications during the school day while on school grounds between students and parents or guardians can be made through the school office.

The superintendent or designee shall ensure this policy is posted on the district website and made available to district personnel, students, parents, guardians, partners who are in school buildings during the school day, and the Oregon Department of Education.

In accordance with ORS 336.840, students may be allowed to use personal electronic devices⁷ that support academic activities and independent communications⁸, except as prohibited by this policy. In academic activities in which a personal electronic device is required as part of the curriculum, students may be allowed, but not required to use their own personal electronic devices for that portion of the curriculum. Students using their own device must be granted access to any applications or electronic materials that are available to students who do not use their own personal electronic devices. These applications must be free of charge if students who do not use their own devices have access free of charge.

Requests for exemptions to this policy can be processed in accordance with JFCEB-AR, Request for Personal Electronic Devices Exemption. Appeals can be filed with the superintendent in accordance with KL-AR(1) – Public Complaint Procedure.

The taking, disseminating, transferring or sharing of obscene, pornographic or otherwise illegal images or photographs, whether by electronic data transfer or otherwise (commonly called texting, sexting, emailing, etc.) may constitute a crime under state and/or federal law. Any person taking, disseminating, transferring or sharing obscene, pornographic or otherwise illegal images or photographs will be reported to law enforcement and/or other appropriate state or federal agencies.

This policy takes effect on September 19, 2025.

END OF POLICY

Oregon Executive Order 25-09

⁵The use of “personal electronic device” in this paragraph comes from ORS 336.840, which does not define the term. However, the definition in EO 25-09 wouldn’t necessarily apply. Consequently, items like laptop computers or other devices required to support academic activities would likely be considered personal electronic devices within this paragraph.

⁶”Independent communication means communication that does not require assistance or interpretation by an individual who is not part of the conversation, but that may require the use or assistance of an electronic device. ORS 336.840(1).
